Introduction

Welcome to PowerSchool! PowerSchool helps your school access and maintain student, staff, and schedule information. PowerSchool is a database application that runs on a server, which is the center of your student information system. PowerSchool uses the Internet to facilitate student information management and communication among school administrators, teachers, parents, and students. PowerSchool Parent Portal is a tool that is integrated into the PowerSchool Student Information System (SIS) that is specifically developed for parents and students. PowerSchool Parent Portal gives parents and students access to real-time information including attendance, grades and detailed assignment descriptions, school bulletins, lunch menus and even personal messages from the teacher. Everyone stays connected: Students stay on top of assignments, parents are able to participate more fully in their student's progress, and teachers can use their gradebook to make decisions on what information they want to share with parents and students.

Parents can create an account with their own desired username and password. This username and password is not retrieved from the school and can be anything desired.

In order to link your son/daughter's account(s) you must get the access ID and password from the school or locate it on the bottom of midterms or report cards.

Step 4: Click "enter" and login using your newly created username and password:
